

Your total business solution on a secure hosted workspace.

FINANCIALS | CONTACTS | SUPPLY CHAIN | PROJECTS | MANUFACTURING | OPERATIONS

Every business **inspires** to move forward and become increasingly successful in their sector and meet their business objectives.

Every manager **inspires** to provide an effective and efficient resource for their team that is adaptable to the needs of the users and the business as a whole.

Inspired by the vision of entrepreneurs ready to get started, and strategic SMEs ready to grow and develop their business, Synergy Technology delivers the perfect solution. Designed and developed by our innovative Dynamics NAV team **inSpiredNAV** is an online version of Microsoft Dynamics NAV 2017 securely hosted on our Citadel platform with many bespoke features and flexible user options.

Without the crippling costs and worry of setting up an IT infrastructure, nor the burden of providing an internal IT resource and managing updates and system security.

Choosing **inSpiredNAV** delivers key strategic benefits to SMEs including:

- Affordable monthly fees ensure your IT costs are manageable and predictable.
- Outstanding flexibility and increased data security.
- Reliable mobile access to your business systems anytime, anywhere with an Internet connection.
- Reliable infrastructure services with regular updates, upgrades and fixes included in monthly pricing.
- Technical support from industry leading UK qualified Microsoft Dynamics professionals.
- Full on-site training which covers all relevant package functionality.

“Being a Microsoft business application, Dynamics NAV has a Windows look and feel and functionality that is familiar to the users. Our team find it intuitive to use, with little training required to get started.” Leisuretec Distribution

Start, grow and build your business

InspiredNAV is a hosted version of Dynamics NAV managed on Synergy Technology's secure Citadel platform allowing users to make a quick and easy transition to Dynamics NAV from outdated or outgrown software, saving you both time and money. Microsoft Dynamics NAV

Whether you are starting up in business, outgrowing entry-level accounting software, patching an outdated legacy solution, or simply tired of paying annual maintenance fees to a vendor that provides little to no value for your money – now is the time to give your team the tools they need to succeed.

Here are the top reasons adopt Microsoft Dynamics NAV for your business:

It's More Than Just ERP

Microsoft has a complete vision for business applications, and it goes beyond what a simple stand-alone ERP solution or accounting software can do. It starts with a unique combination of business intelligence, collaboration, and communication tools embedded across your core business processes.

The result — empowered people who make decisions that help increase your margins, improve your cash flow, and ultimately drive your business growth.

Helps Your People Work Better, Faster, and Smarter

Microsoft Dynamics NAV RoleTailored user experience surfaces the information and tasks relevant to specific job functions. By putting the resources you need most right at your fingertips— and ensuring that the solution works seamlessly with the Microsoft productivity tools you already know how to use— training time is replaced with an intuitive experience that helps people work better, faster, and smarter right from the start.

Looks Forward, Not Backward

In today's competitive landscape you need more than a backward-looking system of record to compete. Microsoft Dynamics NAV helps you become proactive and predictive with embedded business intelligence tools that help you not only solve problems but also prevent them from occurring in the first place.

From financials and supply chain management, to manufacturing and operations, Microsoft Dynamics NAV is an easy-to-use global ERP solution has the power to support your growth ambitions.

Ready when you are! Start, grow and build your business today with inSpiredNAV:

- Quick implementation – our sure step methodology will have your business up and running on inSpiredNAV within a week.
- Flexible choices – with two pre-figured package options inSpiredNAV meets the needs of your business now and for the future.
- Adaptable solutions – increase and reduce your user requirements according to your business growth.
- Wide range of functionality – all you need to run your business in one solution, from financials, CRM and projects to manufacturing, supply chain and warehouse management.
- Work on the go – stay mobile using your favourite device and reliable wifi connection and work from your choice of location.
- Security assured – inSpiredNAV is hosted on Citadel, in a fully accredited and ISO compliant data centre.
